PROFILE

Skilled backend developer experienced in building scalable systems and implementing efficient platform integrations. Focused on optimizing performance, ensuring seamless data flow, and delivering reliable infrastructure solutions.

PROFESSIONAL EXPERIENCE

Engineer Nagarro	01/2024 – present Gurugram, India
<ul style="list-style-type: none">Developed and optimized 250+ APIs for seamless system integration.Delivered scalable backend solutions to enhance performance and reliability.Collaborated with teams to ensure efficient data flow across platforms.	
Associate Engineer Nagarro	07/2022 – 12/2023 Gurugram, India
<ul style="list-style-type: none">Developed expertise in Java and Spring Boot for backend development.Managed codebases using Git and version control systems.Worked with backend technologies, including Node.js, to build and integrate applications.	
Systems Engineer Intern Infosys	02/2022 – 05/2022 Mysore, India
<ul style="list-style-type: none">Developed a system for managing complaints across city departments (Police, Healthcare, Education, Transport) with role-based access (Citizens, Department Members, Mayors, Admins).Tech stack: Java, Spring Boot, Maven, Angular 10, REST APIs, MySQL, Git, GitHub (Infosys instance).	

EDUCATION

Bachelor of Technology (Computer Science and Engineering) PSIT College of Engineering	07/2018 – 07/2022 Kanpur, India
---	------------------------------------

SKILLS

Programming Skills Java, JavaScript, TypeScript, Python, Bash
Frameworks/Libraries Spring Boot, Node, Express, Django
Servers & Platforms SoftwareAG (WebMethods), Docker, AWS, GIT, Apigee, WSO2
Databases MySQL, MongoDB, Postgresql

PROJECTS

Securities Exchange Platform confidential	07/2023 – 07/2024
As a Backend and Integration Engineer, I focused on enhancing integration and data exchange capabilities, Developed 250+ APIs for seamless integration.	
Phonebook	06/2022 – 06/2022
Created a phonebook with Django REST framework, featuring user registration, login, contact management (add, list, search), spam marking, email notifications, and PDF downloads.	
Arduino CLI Docker	06/2022 – 06/2022
A CLI tool to compile arduino codes on the cloud without need of an arduino board	
City-management-system	04/2022 – 05/2022
developed during internship under Infosys A complaint management and resolution dashboard for a smart city utilising the REST, Spring, JWT, MySQL and Angular	

SPECIALIZATIONS AND CERTIFICATES

Open Source Software Development, Linux and GIT Specialization

The Linux Foundation
got a badge for this specialization on credly

Cybersecurity: Developing a Program for Your Business

Kennesaw State University

Problem Solving (Intermediate) Certificate

Hackerrank

Accenture Nordic Developer Program
